

Re;Work

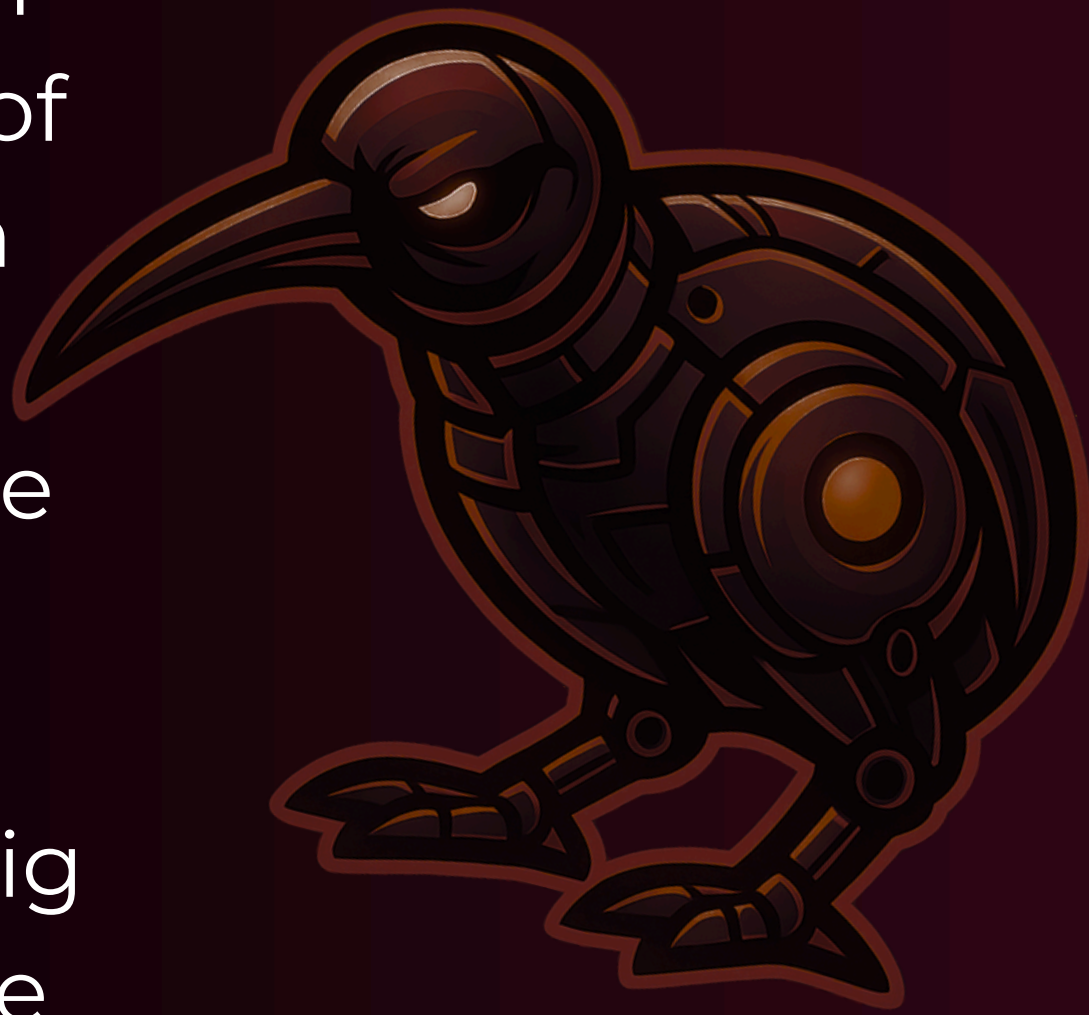

FTC ROBOTICS // EARL HAIG S.S.

Sponsorship Pasckage

Our Story: Embracing our Ability to **Re;Work** failures into successes

Every great invention begins with a series of *errors*. But errors can be **Re;Worked** into successes. We are the new FIRST Tech Challenge **team in formation** at Earl Haig Secondary School, we embrace this principle.

We are a team of dedicated students who believe that the path to innovation is paved with mistakes and reworks. As a rookie team, we are building everything from the ground up, and we are looking for foundational partners to join us on our journey to build a competitive and sustainable STEM program for our school community.

What is FIRST® Tech Challenge [*FTC*]?

FIRST Tech Challenge is a global robotics program where teams of students design, build, program, and operate robots to compete in an annual head-to-head challenge. More than just a competition, FTC is a hands-on learning environment that teaches vital skills in:

- **Engineering & Design:** Students learn mechanical design, prototyping, and fabrication.
- **Programming & Technology:** Teams code their robots in *Java*, the one of the world's most popular programming language.
- **Business & Outreach:** Students create business plans, manage budgets, and engage with their community, learning real-world entrepreneurial skills.
- **Soft skills:** Students also learn about team communication, real world negotiation , and team coordination skills.

Mentors & Support System: A Foundation for Success

A rookie team's greatest asset is its **support system**. We are proud to have established a **mentorship** partnership with the robotics program at **Dr. Norman Bethune C.I.**, home of some of Ontario's most successful FTC teams.

Mr. Vincent Lu, Assistant Curriculum Leader for Tech and Staff Supervisor for **Bethune's five robotics teams**, has personally committed to guiding our team. This partnership provides us with:

Expert guidance for our teacher-advisor from an experienced program leader.

Student-to-student mentorship from a veteran FTC team.

A proven roadmap for building a successful and sustainable program.

Your pledge supports a rookie team that is already backed by an established and successful organization.

Our Founding Year Goal: \$19,750 Budget		
Category	Estimated Cost	Description
Registration & Event Fees	\$790	Covers official FIRST Team Registration and also tournament fees
Robot Development & Parts	\$6,000	Our largest expense. This goes beyond a basic kit to allow for multiple design iterations, prototyping, and a robust inventory of motors, sensors, and control systems.
Tools & Advanced Equipment	\$ 4 ,000	Equipping our workspace with essential hand/power tools, as well as advanced equipment like a 3D printer for creating custom parts.
Full Practice Field & Elements	\$2,500	A to-scale replica of the competition field, crucial for driver practice, programming autonomous routines, and effective testing.
Outreach & Community Building	\$1,500	Materials to run STEM workshops for younger students, team apparel for a professional identity, and promotional materials.
Championship Ambition Fund	\$3,000	An aspirational fund to cover travel and registration fees if we achieve our goal of qualifying for the Provincial or World Championships.
Contingency Fund	\$1,960	For handling unexpected costs, urgent part replacements, and capitalizing on new opportunities during the season.

Sponsorship Tiers:

Join the Team

Benefit	Bronze (\$250+)	Silver (\$500+)	Gold (\$1,000+)	Platinum (\$2,500+)

Your support is critical to our mission. In return for your partnership, we are excited to offer the following recognition once your pledge is fulfilled.

Become a Founding Partner: The Pledge Process

As a team information, we are currently focused on gathering pledges of support to demonstrate community backing to our school. We are not accepting any funds at this time.

Step 1: Review the Tiers and decide on a level of support that is right for you.

Step 2: Make Your Pledge. Please email us at rework.robotics.contact@gmail.com with your name/company name and our pledged sponsorship level. We would be honored to add you to our list of founding partners.

Step 3: Fulfill Your Pledge (After Approval). Once we are officially approved by Earl Haig (expected September 2025), we will contact you with the official information on how to fulfill your donation securely through the school.

Thank you for believing in our potential and helping to launch the next generation of innovators at Earl Haig.
